Our student Hakan Düzduran, who successfully represented our school in the arm wrestling category first in our city and then in our region, within the scope of the "school sports" event organized by the Ministry of Youth and Sports, came first in both the right arm and left arm. These degrees, which he achieved with his devoted work under the guidance of our physical education teacher Suna Kethüda, made us all proud.

Now it's time for the championship of Turkey in Ankara. We all support you to the end and believe that you will succeed.

We're proud of you.
